

Project Design Phase
Proposed Solution Template

Date	13 july 2026
Team ID	
Project Name	Books store
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement	Traditional bookstore have limited reach, manual inventory management, and lack a unified platform for customers, sellers, and administrators to efficiently buy, sell, and manage books online.
2.	Idea / Solution Description	Bookstore is a MERN-stack online bookstore with MVC architecture, JWT authentication, RBAC (Customer, Seller, Admin), book catalog, search/filtering, cart, order management, inventory tracking, reviews, dashboards, and secure REST APIs.
3.	Novelty / Uniqueness	Role-based multi-vendor platform with separate Seller and Admin dashboards, scalable MVC architecture, MongoDB, responsive UI, secure authentication, and efficient inventory/order management.
4.	Social Impact / Customer Satisfaction	Promotes online reading, supports local sellers, simplifies book discovery, provides secure purchasing, transparent order tracking, and an improved user experience.
5.	Business Model	Commission on book sales, seller subscriptions, featured book promotions, advertisements, and premium memberships.
6.	Scalability	Modular MERN architecture supports horizontal scaling, cloud deployment, additional services such as payment gateways, notifications, recommendations, analytics, and mobile applications.
